DETAILED ACTION

Allowable Subject Matter

1. Claims 4-7 and 9-15 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The present invention comprises a first digital receiver producing a first feedback signal in response to the RF predistorted signal from the I/Q modulator and a second digital received producing a second feedback signal in response to the RF amplified output from the power amplifier. The closest prior art, Persson (US Patent Number 6,246,286) shows a similar system, which also the two receivers as recited in the claims. However, Persson (or combination with Helms (2001/0014592) fails to disclose the system comprising the limitations shown in the last paragraph as recited in claims 4, 6, 9, 11, 13 and 15, respectively. The distinct features have been added to the independent claims, therefore, rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
